INTRODUCTION

Glory2Glory I.T & Graphic Solutions is an I.T consultancy, web hosting, branding, marketing and graphic designing company based in South Africa, Johannesburg. The company saw the need to balance the competition equation amongst already established companies and newly created companies. The philosophy behind this drive being that, **Companies do not advertise because they are big BUT they are big because they advertise**. Thus, by awakening to the realization that for any type of organization to prosper it has to pay specific attention to its marketing budget, in particular the advertising budget and I.T infrastructure. Hence, **Glory2Glory**, as a player in the I.T, web hosting, branding and advertising fraternity offers lucrative advertising packages tailor made for any of these companies to help them as a promotional vehicle in attaining their organizational goals in the most proficient way.

It has always been a myth as to how some organizations tends to thrive more in an environment that has seen more companies collapse. Resources are allocated Specifically all in the hope to attain higher productivity levels but alas! Still they fall even harder. Well, demystifying the mystery; in as much you might know what to produce, how to produce it, when to produce it, who to produce it for But without knowing how best to get what you have produced to the one you have produced it for, you haven't done anything yet. The market place has however been revolutionalized to an extent that the ones who know the best ways of getting their produce to the market gets the lions' share. It has even got worse to the stage that at times you do not need to meet the client for you to sell, but how you brand your product/service and how much publicity is your company getting could land you sales of your life time.

Our dedicated reliable servers enable our clients to establish a successful presence on the internet, for a first class web experience to their clients as well. We provide our clients with value-adding solutions to their business and giving them a competitive edge by means of an attractive range of web based hosting services, internet advertising as well as publishing and marketing options, all aimed at establishing their presence on the web.

VISION

To be a leading, energetic, innovative, dynamic and professional business providing the most sought after services to all companies, each one fitting to a package made to suit their needs.

To empower youth by acquiring business opportunities to create jobs for young males, females, people with disability and contribute towards socio - economic development and sustain ability.

MISSION
